### **About Me**

I studied Communication Arts at University of Wurzburg. I work for Électricité de France as a Senior Localization Engineer. I am experienced in the following areas: Business intelligence, Management department processes, Alter management, Manage time, Project management, ICT project management methodologies, and Manage contracts. I am highly able to listen. During my career, I have developed good proper business etiquette and selling skills. The words that best define me are independent, aware of diversity issues and self-aware. I can contribute to the company high energy, business ethics and sense of humor.

### **My Footprint**

Perform project management, Management department processes, Identify process improvements, Manage time, Manage contracts, Risk management, ICT project management methodologies, Project management, Lead a team, Alter management, Visiting Researcher, Scrum Master, Architect, Analyst
